

CCTV Policy

About this Policy

Ayscoughfee Hall School uses CCTV cameras to monitor the security of the school premises. We recognise that the images of individuals recorded by CCTV cameras are personal data which must be processed in accordance with data protection laws.

The purpose of this policy is to:

- outline why and how we will use CCTV, and how we will process personal data recorded by CCTV cameras;
- ensure that the legal rights of our pupils, parents, staff and visitors relating to their personal data are recognised and respected; and
- assist staff in complying with relevant legal obligations when working with personal data.

A breach of this policy may, in appropriate circumstances, be treated as a disciplinary matter. Following investigation, a breach of this policy may be regarded as misconduct leading to disciplinary action, up to and including dismissal.

The CCTV system is administered and managed by the School, which is the controller in respect of personal data collected by our CCTV cameras. If you have any questions about this policy, please contact Mrs Emma Gibson, Bursar.

This policy will be subject to review from time to time and should be read with reference to the School's Data Protection Policy / Privacy Notice. We will also review the ongoing use of existing CCTV cameras regularly to ensure that their use remains necessary and appropriate and that the system is continuing to address the needs that justified its introduction.

Objectives

The School's purposes for using the CCTV system are set out below and having fully considered the privacy rights of individuals, the School believes these purposes are all in its legitimate interests. Data captured for the purposes below will not be used for any commercial purpose.

- To protect pupils, parents, staff and visitors with regard to their personal safety and to act as a deterrent against crime.
- To protect the School buildings and equipment and the personal property of pupils, parents, staff and visitors from damage, disruption, vandalism and other crime.
- To prevent and detect crime and support law enforcement bodies in the prevention, detection and prosecution of crime as well as the identification and apprehension of offenders.
- To monitor the security and integrity of the School site and deliveries and arrivals.
- To assist in day-to-day management, including ensuring the health and safety of pupils, parents, staff and visitors.

Please note that this list is not exhaustive and other purposes may become relevant from time to time.

Positioning

Locations for the CCTV cameras have been selected, all of which are outside our premises, that the School reasonably believes require monitoring to address the above objectives. The cameras are located in the following areas:

- Front Entrance (red door)
- Car Park
- Side Green Gate
- Quiet Area
- Playground

Adequate signage has been placed in prominent positions around the premises to inform pupils, parents, staff and visitors that they are entering a monitored area.

These locations have been chosen to minimise viewing of spaces not relevant to the legitimate purposes of the School's monitoring. As far as practically possible, CCTV cameras will not focus on private property; and no images of public spaces will be captured except to a limited extent at site entrances. In addition, surveillance systems will not be used to capture images in areas in which individuals would have a heightened expectation of privacy, including medical, changing and washroom facilities.

Maintenance

The CCTV system will be operational 24 hours a day, every day of the year.

Authorised personnel will check and confirm that the CCTV system is properly recording and that cameras are functioning correctly, on a regular basis.

The CCTV system will be checked and (to the extent necessary) serviced no less than annually.

Supervision

We will ensure that recorded images are only viewed by approved members of staff whose roles require them to have access to such data. Staff using the CCTV system will be given appropriate training to ensure that they understand and observe the legal requirements related to the processing of relevant data.

Images will only be viewed and/or monitored in a suitably secure and private area to minimise the likelihood of or opportunity for access to unauthorised persons.

Storage

In order to ensure that the rights of individuals recorded by the CCTV system are protected, we will ensure that data gathered by CCTV cameras is stored in a way that maintains its integrity and security.

Images will be stored for approximately 28 days on a Network Video Recorder hard drive and are automatically over-written unless the School considers it reasonably necessary for the pursuit of the objectives outlined above, or if lawfully required to retain such data (for example, by an appropriate third party such as the police or local authority).

Where personal data collected by the CCTV system is retained, it will be held in accordance with data protection law and our Data Protection Policy.

Requests for disclosure

Individuals have the right to request access to personal data that the School holds about them (otherwise known as a “subject access request”, on which please see the School’s Privacy Notice and Data Protection Policy for further information), including information collected by the CCTV system, if it has been retained.

In order to respond to a subject access request, the School will require specific details including (as a minimum) the time, date and camera location before it can properly respond to any such requests. This right is subject to certain exemptions from access, including in some circumstances where others are identifiable.

The School must also be satisfied as to the identity of the person wishing to view stored images and the legitimacy of their request.

No images from our CCTV cameras will be disclosed to a third party without express permission being given by the School. The following are examples of circumstances in which the School may authorise disclosure of CCTV images to third parties:

- Where required to do so by the police or any relevant local or statutory authority;
- To make a report regarding suspected criminal behaviour or a safeguarding incident;
- To enable the Designated Safeguarding Lead or his/her appointed deputy to examine behaviour which may give rise to any reasonable safeguarding concern;
- To individual data subjects (or their legal representatives) pursuant to a subject access request (as outlined above);
- To the School's insurance company where required in order to pursue a claim (for example for damage to insured property); or
- In any other circumstances required under law or regulation.

Where images are disclosed, a record will be made in the system log book including the person viewing the images, the time of access, the reason for viewing the images, the details of images viewed and a crime incident number (if applicable).

The School reserves the right to obscure images of third parties when disclosing CCTV footage, where we consider it necessary to do so.

Complaints and queries

Any complaints or queries in relation to the School's CCTV system, or its use of CCTV, or requests for copies, should be referred to Mrs Emma Gibson, Bursar.

For any other queries concerning the use of your personal data by the School, please see the School’s applicable Privacy Notice.

This policy should be read in conjunction with the School’s Data Protection Policy

Any reference to the word ‘School’ implicitly includes all its associated clubs/activities including Kids Club. This policy also applies to EYFS
