

PSHE (PERSONAL, SOCIAL, HEALTH AND ECONOMIC EDUCATION) AND RSHE (RELATIONSHIPS, SEX AND HEALTH EDUCATION) POLICY

(Including Relationships, Sex and Health Education Statutory from September 2026)

Personal, Social, Health and Economic Education (PSHE) is our comprehensive curriculum for supporting children's personal development, health, wellbeing and understanding of relationships.

We are required by law to teach Relationships Education and Health Education to all primary-aged pupils. We deliver these statutory subjects within our broader PSHE programme.

Our PSHE curriculum also includes age-appropriate aspects of economic education, preparing children to understand spending, saving and the world of work, and citizenship education including British Values, helping children understand their rights, responsibilities and role in society.

This policy explains our whole-school approach to PSHE education and how we meet our statutory duties.

1. Our Vision for PSHE Education

At Ayscoughtee Hall School we believe every child deserves an education that prepares them not only for academic success but also to thrive as rounded individuals in modern society. Personal, Social, Health and Economic (PSHE) education sits at the heart of this commitment.

PSHE is not an add-on to our curriculum; it is fundamental to our children's development as confident, healthy and respectful members of society. Through high-quality PSHE, we equip pupils with the knowledge, skills and attributes they need to stay safe, maintain wellbeing, and build positive relationships throughout their lives.

Our curriculum is carefully designed to be developmental and progressive. From the moment children join our school, they begin to explore emotional literacy—learning to recognise, name and talk about feelings. This foundation grows year by year, helping pupils to manage emotions, develop resilience, and make informed decisions that support their own and others' wellbeing.

By embedding PSHE across our school culture, we nurture a community where respect, inclusivity and responsibility flourish. In doing so, we prepare our pupils not only for the challenges of childhood but also for adulthood, work and active citizenship.

We are committed to:

- Supporting the whole child - recognising that children's emotional and social development directly impacts their capacity to learn
- Creating a safe, inclusive environment where every child feels valued and able to discuss concerns without fear or stigma
- Building foundations for the future - providing age-appropriate learning that prepares children for the challenges and opportunities of adolescence and beyond
- Working in partnership with families, recognising that parents are children's first educators in many aspects of relationships and health
- Embedding PSHE across school life - not just in weekly lessons, but through our values, relationships, and everyday interactions

2. Statutory Requirements and Curriculum Framework

Under the Education Act 2002 and the Academies Act 2010, all schools must provide a curriculum that:

- Promotes the spiritual, moral, cultural, mental and physical development of pupils
- Prepares pupils for the opportunities, responsibilities and experiences of later life

The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations (updated July 2025) make Relationships Education and Health Education statutory for all primary-aged pupils. These subjects must be taught in all maintained schools, academies, independent schools, maintained special schools, non-maintained special schools, and alternative provision settings.

We deliver statutory Relationships and Health Education within our comprehensive PSHE programme, using materials from Jigsaw PSHE 3-11. This provides children with a carefully sequenced, age-appropriate curriculum that meets all statutory requirements whilst also developing wider personal and social capabilities.

Our curriculum addresses all statutory requirements including:

- Families and people who care for me
- Caring friendships
- Respectful, kind relationships
- Online safety and awareness
- Being safe
- Mental wellbeing
- Internet safety and harms
- Physical health and fitness
- Healthy eating
- Drugs, alcohol, tobacco and vaping
- Health protection and prevention
- Basic first aid
- Developing bodies (including puberty as part of Health Education)

A detailed mapping document showing how the Jigsaw programme covers every statutory outcome is available to view on request and can be accessed in Appendix A.

3. The Jigsaw Approach: A Whole-School Framework

We use Jigsaw PSHE as our curriculum framework because it provides a comprehensive, carefully sequenced scheme of work that brings consistency and progression to children's learning across their primary years. Built on current research and best practice in child development, safeguarding and health education, it is kept continuously up to date with evolving statutory guidance and enables us to deliver high-quality PSHE education that meets our children's needs. The programme is distinctive in its approach including:

Emotional literacy at the core - Every Jigsaw lesson systematically develops children's emotional vocabulary and understanding. Children learn to recognise, name and talk about a wide range of feelings in themselves and others. This emotional literacy supports children's ability to share and discuss things that are important in their lives, to seek help when needed, and to build positive relationships.

Mindful practice - Every Jigsaw lesson begins with 'Calm Me Time', a mindfulness activity designed to support self-regulation and create a safe, focused space for learning. This consistent practice forms part of our approach to children's emotional wellbeing and helps children to be ready for open, thoughtful discussion.

Connection and community - The 'Connect Us' activity in every lesson strengthens relationships within the class and develops children's social skills, building a sense of belonging and mutual respect that underpins all learning.

Developing skills for respectful dialogue - PSHE lessons provide regular opportunities for children to develop and practise essential communication skills including listening to others, expressing their own views clearly and respectfully, considering different perspectives, and engaging in constructive discussion. These oracy skills are fundamental to building positive relationships and respectful communities, enabling children to navigate differences with kindness and to participate confidently in democratic discussion.

Age-appropriate spiral curriculum - Topics are revisited across year groups with increasing depth and complexity, enabling children to build on prior learning in line with their developing maturity and understanding, with teachers able to adapt according to their pupils' needs.

Interactive, participative teaching - Lessons are designed to be engaging and active, using discussion, role-play, problem-solving and creative activities to develop skills alongside knowledge. Children don't just gain information - they explore topics in age-appropriate ways and develop practical skills that support them in their everyday lives.

The Six Jigsaw Puzzles

Our PSHE curriculum is organised into six themed units ('Puzzles'), each taught for approximately half a term:

Term	Puzzle	Key Content
Autumn 1	Being Me in My World	Understanding personal identity, my place in the class and school community, rights and responsibilities, democracy, making a positive contribution.
Autumn 2	Celebrating Difference	Recognising and respecting diversity, challenging stereotypes, understanding difference and similarity, addressing bullying, building empathy and compassion.
Spring 1	Dreams and Goals	Setting and working towards goals, understanding aspirations and future possibilities, developing perseverance and resilience, recognising achievements, working collaboratively.
Spring 2	Healthy Me	The relationship between physical and emotional health; nutrition, sleep, exercise and hygiene; emotional wellbeing; drug education (including medicines); keeping safe; understanding habits and making healthy lifestyle choices.
Summer 1	Relationships	Understanding different relationships and their characteristics, our families, managing friendship challenges, conflict resolution and communication skills, recognising when relationships are unhealthy, understanding loss and bereavement.
Summer 2	Changing Me	Understanding life cycles and human growth, coping positively with change, body image and self-esteem, puberty education, changing relationships.

Adapting Jigsaw for Our School Community

Whilst we follow the Jigsaw programme, we recognise that our children, families and context have specific

needs and characteristics. Our PSHE lead and class teachers carefully consider each lesson's content and approach to ensure it is appropriate and relevant for our pupils, taking into account:

- The specific needs, experiences and developmental stages of pupils in each class
- Pupil voice - gathered through feedback within lessons, informal discussions with children, school council discussions, pupil surveys, class discussions
- Local context and community considerations
- Feedback from parents, pupils and staff
- Our school's distinctive values and ethos

Where we make adaptations to the programme, these decisions are made thoughtfully, in consultation with senior leadership, and with reference to statutory requirements. Parents and carers are informed about significant adaptations, particularly where these relate to sensitive content.

4. Curriculum Time and Whole-School Approach

PSHE is taught weekly by the class teachers. Learning is integrated naturally into the classroom environment so that teachers can draw connections between PSHE and other areas of learning.

Beyond the Classroom: Embedding PSHE in School Life

We recognise that effective PSHE education extends far beyond weekly lessons. The skills, values and understanding developed in PSHE sessions are reinforced and 'lived' throughout our school day and across all areas of school life such as:

- Whole school assemblies regularly explore PSHE themes, celebrating successes, exploring moral questions and building whole-school awareness of current wellbeing and relationship topics.
- Our behaviour policy reflects the principles taught in PSHE, emphasising respect, kindness, responsibility and positive conflict resolution. Adults model these values in all interactions with children and each other.
- The Jigsaw Learning Charter established in each class at the start of the year becomes a living document that children refer to and use to guide behaviour and resolve difficulties.
- Playground and social times provide opportunities for children to practice the friendship and conflict-resolution skills learned in PSHE, supported by staff who understand the PSHE curriculum and can reference learning when supporting children.
- Emotional literacy taught in PSHE develops an extensive vocabulary for feelings and emotions which is reinforced throughout the school day, with staff supporting children to name and express their feelings, to understand others' emotions, and to use this awareness to build positive relationships and resolve difficulties.
- Recognition and reward systems (star of the week, kindness awards, headteacher award) celebrate not just academic achievement but the personal and social qualities developed through PSHE - kindness, perseverance, respect, courage, and contribution to the school community.

5. Relationships and Health Education: Statutory Content

Relationships Education

Relationships Education is compulsory for all primary-aged children and there is no right of withdrawal. It focuses on teaching children the fundamental building blocks of positive, respectful relationships with family, friends, peers and adults.

By the end of primary school, our children will understand:

- Families and people who care for me - That families come in many forms and all can provide love, security and stability; the characteristics of healthy family life; how to recognise unhealthy family relationships and seek help; marriage and civil partnerships as legal commitments.
- Caring friendships - How friendships contribute to happiness and security; characteristics of healthy friendships including mutual respect, trust, loyalty and kindness; how to recognise and navigate friendship difficulties; how to make and maintain positive friendships.

- Respectful, kind relationships - The importance of paying attention to others' needs; setting and respecting boundaries; communicating effectively and managing conflict with kindness; the importance of respect and self-respect; different types of bullying and how to respond; understanding stereotypes and how to challenge them.
- Online safety and awareness - How to behave respectfully online; critically evaluating online relationships and information; understanding privacy and personal information; recognising and reporting online risks; age restrictions for social media; understanding that content online can be inappropriate or upsetting.
- Being safe - Understanding appropriate and inappropriate boundaries; concepts of privacy and consent; that each person's body belongs to them; how to recognise when relationships are unsafe; how to respond to concerning adults; how to report abuse and seek help with confidence.

Health Education

Health Education is compulsory for all primary-aged children and there is no right of withdrawal. It focuses on supporting children to make informed decisions about their health and wellbeing.

By the end of primary school, our children will understand:

- Mental wellbeing - The normal range of emotions; how to recognise, talk about and manage feelings; simple self-care techniques; that mental health challenges are common and can be supported; where and how to seek help when needed.
- Internet safety and harms - The benefits and risks of internet use; rationing screen time; recognising and displaying respectful online behaviour; age restrictions on games and apps; being discerning about online information; where to report concerns.
- Physical health and fitness - Benefits of an active lifestyle; building regular physical activity into routines; risks of inactive lifestyles; when to seek health support.
- Healthy eating - What constitutes a healthy diet; principles of healthy meal planning; risks of unhealthy eating including impacts on teeth and weight; impacts of alcohol on health.
- Drugs, alcohol, tobacco and vaping - Age-appropriate facts about legal and illegal substances and associated risks, including the risks of nicotine addiction.
- Health protection and prevention - Recognising early signs of illness; sun safety; importance of good quality sleep; dental health and oral hygiene; personal hygiene and germ spread; facts about vaccination and immunisation.
- Personal safety - Recognising hazards and reducing risks; road, water and rail safety; when and how to seek help in emergencies.
- Basic first aid - How to make emergency calls; dealing with common injuries including head injuries.
- Developing bodies - Understanding growth and body changes during adolescence; correct names for body parts; facts about the menstrual cycle including physical and emotional changes (noting that whilst average age of menstruation is 12, it can begin from age 8, so we teach this content before girls experience menstruation).

Building Foundations for Secondary RSHE

The primary PSHE curriculum is carefully designed to be age-appropriate and valuable for children's current stage of development. This learning also builds strong foundations that will support children as they encounter more complex content at secondary school. For example:

- Children learn skills for managing difficult feelings in friendships like disappointment or anger. These are essential skills for their current friendships and family relationships and support them to behave with kindness as their relationships become more complex.
- Children learn about appropriate boundaries, privacy and consent in age-appropriate ways from early primary. This learning is crucial for safeguarding - enabling children to recognise when something doesn't feel right, to understand that they have rights over their own bodies and personal information, and to seek help when needed. These concepts become increasingly important as children develop and encounter different situations, both now and in future relationships.
- We teach children to recognise healthy relationship characteristics and warning signs across all relationships. This helps them navigate their current friendships and family relationships, with skills they'll continue to apply throughout their lives.

- Understanding of online safety, digital literacy and respectful online behaviour builds progressively throughout primary. We recognise that some of our children are already spending time online, and those who are not will have questions or concerns about the online world. Our approach is preventative, equipping children with knowledge and skills to stay safe if they do encounter online content or situations, rather than normalising excessive or unsafe internet use. This prepares children to navigate the more complex digital relationships and challenges they'll encounter as teenagers.
- Learning about emotions, mental wellbeing and self-care begins early and deepens each year. This supports children's current wellbeing and helps them manage the everyday challenges of childhood, whilst ensuring they reach secondary with established vocabulary, awareness and strategies for protecting their mental health.

This progressive, developmental approach ensures that PSHE content is always age-appropriate and relevant to children's current lives, whilst also building solid foundations for more sophisticated understanding as they mature.

Challenging Stereotypes and Promoting Respect

Throughout our PSHE curriculum, we actively work to break down harmful stereotypes, including gender stereotypes that can limit children's aspirations, reinforce inequalities, or contribute to disrespectful behaviour, and explain how some characteristics are protected under UK law. As children progress through the programme, they encounter a number of protected characteristics in age-appropriate ways, understanding why certain groups have legal protection from discrimination and how this relates to treating all people with dignity and respect.

For example, children learn that all people deserve respect regardless of their sex, and we challenge outdated ideas about what boys and girls "should" be like, what they can achieve, or how they should behave. We help children understand that boys and girls can have diverse interests, strengths, and personalities, and that qualities like kindness, strength, nurturing, and courage are human qualities that everyone can demonstrate, not traits that belong only to one sex.

Age-appropriately, we address how stereotypes and prejudiced attitudes, including misogyny, can lead to unkind behaviour, bullying, and a lack of respect in relationships. We make clear that everyone - boys and girls - has responsibility for treating others with kindness and respect, and that harmful attitudes or language are never acceptable.

This approach supports both safeguarding and the development of healthy, equal relationships, helping all children to feel valued and to respect others.

6. Sex Education in Ayscoughfee Hall School

Sex education is not compulsory in primary schools, however the Department for Education recommends that all primary schools teach age-appropriate sex education to ensure children are prepared for the changes adolescence brings and understand how human life begins.

At Ayscoughfee Hall School our approach to sex education is to teach Sex Education taught within our science lessons. We teach about human reproduction within our science curriculum, in line with the National Curriculum Science requirements that children learn about life cycles and how mammals reproduce. Because this is taught as part of the statutory Science curriculum, parents do not have the right to withdraw children from this content.

We ensure this learning is delivered in a factual, scientific manner and is age-appropriate. It focuses on the biological facts of reproduction rather than the emotional or relationship aspects of sex, which are covered (without explicit detail of sexual activity) in Relationships Education.

The following Jigsaw lessons in the Changing Me Puzzle contain non-statutory sex education content and will therefore not be taught as part of PSHE.

Year 5: Conception

Year 6: Babies: Conception to Birth

Responding to children's questions

We recognise that children may ask questions beyond our planned curriculum. Teachers use professional judgement to respond and may answer briefly and factually if age-appropriate, suggest the child speaks with their parent or carer, or acknowledge the question while explaining they'll learn more when older.

7. Inclusive Practice and Equality

We are committed to an inclusive PSHE curriculum that is accessible to and respectful of all children and families.

Meeting the Equality Act 2010

We comply with the Equality Act 2010 and the Public Sector Equality Duty, ensuring that PSHE is taught in a way that:

- Does not subject pupils to discrimination
- Promotes equality of opportunity
- Fosters good relations between people with protected characteristics and those without

The protected characteristics are: age, disability, gender reassignment, marriage or civil partnership, pregnancy and maternity, race, religion or belief, sex, and sexual orientation.

Teaching about Families and Relationships

Our curriculum presents families in all their forms, recognising that children come from diverse family backgrounds including:

- Single parent families
- Same-sex parent families
- Families headed by grandparents or other relatives
- Adoptive families
- Foster families
- Kinship care arrangements
- Blended families
- Families from different cultural and religious backgrounds

We ensure that no child is stigmatised based on their home circumstances and that all family structures are represented positively in our teaching. When discussing families, we emphasise that the key characteristic of families is that they provide love, care, stability and security for children, not a particular structure.

Including LGBT Content

Throughout PSHE education, children learn that all people deserve to be treated with respect and kindness, regardless of difference. This is a fundamental principle that runs through all our teaching.

In teaching about families and relationships, we include same-sex parents alongside other family structures, presented naturally as one of the many different types of families that children may have or encounter. This content is integrated throughout the curriculum rather than taught as a standalone topic, ensuring that diverse families are visible and valued within our school community.

Children learn about treating others with kindness and respect, understanding that people have protection from discrimination and should be treated with dignity and respect, and that there are laws in place to protect people's rights. Pupils learn how bullying or discriminatory behaviour is never acceptable and how to report this for themselves or others.

Jigsaw PSHE 3-11 does not include content on gender questioning or transgender topics. Our focus at primary level is on teaching children to respect all people and to challenge stereotypes about what boys and girls can do, be, or achieve, without introducing complex concepts about gender identity.

For detailed information about what Jigsaw PSHE 3-11 teaches about LGBT relationships, schools can

access our supporting document 'Including and Valuing All Children: What does Jigsaw PSHE 3-11 teach about LGBT relationships?' Appendix B, which provides specific examples from lessons and addresses common questions.

Supporting Children with SEND

Children with special educational needs and/or disabilities receive appropriate, differentiated PSHE education that meets their needs. PSHE is particularly important for children with SEND, who may be more vulnerable to exploitation, abuse and bullying. Teachers adapt lessons to ensure content is accessible, using:

- Visual supports, simplified language, concrete examples
- Additional pre-teaching or small group work where needed
- Multi-sensory approaches and practical activities
- Extended time for processing and responding
- Personalised social stories or resources where appropriate

For some children with SEND, certain PSHE content may need to be taught in different ways or at different times to ensure understanding and safety. The SENCO works closely with the PSHE lead and class teachers to ensure appropriate provision.

Respecting Religion and Belief

We respect the religious backgrounds and beliefs of all families in our school community. PSHE content is delivered in a factual, objective manner, presenting scientific and medical information accurately whilst being sensitive to diverse religious perspectives.

Where relevant, we may discuss different views held by religious communities on particular issues, helping children to understand that people's beliefs inform their values and choices. This is done in a way that promotes respect for diversity of belief whilst being clear about the law and children's rights.

8. Safeguarding and Support

PSHE education has a crucial role in our safeguarding provision, equipping children with the knowledge and skills to keep themselves safe and to seek help when needed.

Through PSHE, children learn to:

- Recognise when relationships or situations are unsafe
- Understand that abuse is never their fault
- Know a range of trusted adults they can talk to
- Develop vocabulary to express concerns clearly
- Build confidence to keep asking for help until they are heard
- Understand their rights over their own bodies and personal information
- Recognise emotional, physical and sexual abuse
- Identify risks online and in the physical world
- Develop resilience and strategies for managing difficult situations

Managing Disclosures and Concerns

PSHE lessons, particularly those addressing sensitive topics, may lead to disclosures from children. All staff are trained to:

- Respond calmly and supportively to disclosures
- Never promise confidentiality (explaining that some concerns must be shared to keep children safe)
- Listen carefully without asking leading questions
- Record concerns accurately and immediately
- Report all concerns to the Designated Safeguarding Lead (DSL) or Deputy Designated Safeguarding Lead (DDSL) without delay

Children are informed via the Jigsaw Charter at the start of PSHE lessons how confidentiality works - that personal information shared by others during discussions will be treated with respect and care, but if a teacher is worried about a child's safety, they will need to share information with people who can help.

All staff delivering PSHE education are familiar with our safeguarding and child protection policy and procedures. Where external visitors contribute to PSHE delivery, they are briefed on safeguarding procedures before working with children.

Signposting to Support

We actively encourage children to talk with their families about their worries and concerns, recognising that parents and carers are often the first and most important source of support. At the same time, we understand that for a small number of children, there may be times when they want or need to seek support from other trusted adults, and we ensure children know how to do this when needed.

Within PSHE lessons and through displays, assemblies and other communications, children are regularly informed about sources of support both within school and externally:

- Named trusted adults within school
- How to access pastoral support
- External helplines relevant to their age (e.g., Childline)
- Emergency services and how to access them

It is positive and healthy for all children to have a range of trusted adults they can turn to for support - within their family, at school, and in the wider community. Our PSHE curriculum emphasises that seeking help is a sign of strength, not weakness, and that support is always available.

9. Working in Partnership with Parents and Carers

We recognise that parents and carers are children's first and most important educators, particularly regarding relationships and health. Effective PSHE education works in partnership with families, supporting parents to continue conversations started in school and keeping them informed about what their children are learning.

Consultation and Communication

We engage with parents and carers throughout the year and when developing and reviewing our PSHE policy, seeking their views on content, approach and resources. This includes:

- Gathering parent views through ongoing communication and opportunities to share feedback
- Opportunities to view teaching materials
- Parent information sessions to explain curriculum content and answer questions
- Regular communication about PSHE curriculum through newsletters, class communications and our website

Viewing PSHE Teaching Materials

We want parents to feel informed about what their children are learning in PSHE. We provide parent/teacher Knowledge Organisers for each puzzle (half term unit). These summarise the key learning objectives and content from the Jigsaw programme. They provide a clear overview of what will be taught in each Puzzle without overwhelming detail.

We actively encourage parents to engage with these resources so they can support and continue conversations at home. If you have any questions about PSHE content or would like to discuss any other materials, please contact Jackie Jeffries (PSHE lead)

Supporting Parents

We provide information to parents about the PSHE topics being covered each term, with suggestions for how to support learning at home and guidance on managing sensitive conversations.

Responding to Concerns

We welcome parents' questions and concerns about PSHE education. Parents who have concerns should contact their child's class teacher in the first instance, the PSHE lead (Mrs Jackie Jeffries) or the Headteacher (Mrs Theresa Wright). We aim to address concerns through open, honest discussion, sharing curriculum materials, explaining the rationale for content, and demonstrating how teaching is age-appropriate and sensitively delivered.

10. Teacher Support and Professional Development

High-quality PSHE education requires confident, well-supported teachers who have the knowledge, skills and resources to deliver sensitive content effectively.

Supporting Our Teachers

We support staff delivering PSHE through:

- Comprehensive resources - The Jigsaw programme provides detailed lesson plans, teaching resources, assessment materials and guidance, reducing planning burden and ensuring consistency across year groups.
- Regular professional development - Staff receive training on:
 - Using the Jigsaw programme effectively
 - Teaching sensitive and controversial topics
 - Managing difficult questions and discussions
 - Safeguarding and responding to disclosures
 - Creating safe, inclusive classroom environments
 - Current issues affecting children (e.g., online safety, mental health)
- Collaborative planning and review - to plan and share effective practice, discuss challenges, and support each other in delivering sensitive content.
- Senior leadership support - The PSHE lead and senior management team provide ongoing support, including observing lessons where helpful, advising on complex situations, and ensuring staff wellbeing.
- Access to specialist support - Where needed, we access support from external specialists including school nurses, PSHE advisors, mental health professionals and other local services to enhance staff knowledge and lesson delivery.

Creating Confident, Skilled Practitioners

We recognise that teaching PSHE requires particular skills:

- Creating safe, non-judgemental spaces for discussion
- Using distancing techniques when discussing sensitive content
- Facilitating participative, interactive learning rather than delivering information
- Responding to unexpected questions or disclosures
- Managing the balance between planned content and responsive teaching
- Supporting children who may find topics triggering or upsetting

Ongoing professional development helps our staff to develop and refine these skills, ensuring that PSHE teaching is consistently effective across our school.

11. Assessment, Monitoring and Evaluation

We monitor and evaluate our PSHE provision to ensure it is meeting children's needs, is delivered consistently across the school, and is having positive impact on children's wellbeing and development. We track children's progress to ensure learning is embedded and to identify where additional support may be needed. Assessment in PSHE focuses on:

- Knowledge and understanding of key concepts

- Development of skills (e.g. communication, conflict resolution, decision-making)
- Ability to apply learning to real situations

The Jigsaw programme includes assessment materials and opportunities for children to reflect on their learning. Teachers use a range of strategies including:

- Observation of discussions, role plays and collaborative activities
- Review of written work, children's self-assessments and reflections
- Formative assessments on SONAR to track understanding against each term's learning objectives.
- Summative assessments on SONAR at the end of each half term (6 times a year)

Progress in PSHE is reported to parents as part of every child's annual report.

Monitoring Quality and Impact

The PSHE lead, working with senior management team and governors, monitors PSHE provision through:

- Following the school's subject scrutiny procedures which include reviews of subject teaching, learning environment, pupil engagement/pupil voice, book look and a planning check.
- Review of assessment information
- Staff feedback on confidence, resources and support needs
- Analysis of behaviour, wellbeing and safeguarding data from termly My Concern data
- Parent feedback through surveys and consultation

Monitoring enables us to celebrate effective practice, identify areas for development, and ensure consistency in quality across the school.

Evaluating Impact

We evaluate the impact of PSHE education by looking at:

- Children's knowledge, skills and confidence as evidenced through assessment
- Quality of relationships between children and between children and adults
- Positive behaviour and ability to resolve conflicts constructively
- Children's wellbeing and mental health indicators
- Children's confidence in seeking help and reporting concerns
- Safeguarding data and how well children identify and report concerns
- Preparedness for transition to secondary school

This evaluation informs ongoing improvement of our PSHE provision and contributes to our annual policy review.

12. Links to Other Policies and Curriculum Areas

PSHE does not exist in isolation but connects closely with other areas of school life and curriculum. This PSHE policy should be read in conjunction with:

- Anti-Bullying Policy
- Behaviour Policy
- Equality, Diversity and Inclusion Policy
- Health and Safety Policy
- Online Safety and Acceptable Use of ICT Policy
- Safeguarding and Child Protection Policy
- SEND Policy

Links Across the Curriculum

PSHE learning is reinforced through other curriculum subjects including:

- Science: Learning about the human body, life cycles, health, drugs and their effects, puberty and reproduction.
- ICT: Online safety, respectful online communication, understanding how technology works and is used.
- PE: Physical health, benefits of exercise, teamwork, resilience, managing success and failure.
- Religious Education: Moral questions, values, beliefs and world views, diversity and respect.
- English: Texts often provide opportunities to explore PSHE themes including relationships, diversity, moral dilemmas, resilience and identity.

Teachers actively make connections between PSHE and other learning, reinforcing understanding and helping children to see how PSHE knowledge and skills apply across different contexts.

13. Policy Development, Review and Approval

This policy was developed through consultation with:

- School staff, including teaching staff, support staff and senior leadership
- Parents and carers through consultation meetings and information sharing
- Pupils through subject monitoring, school council discussions, pupil interviews
- Governors

The policy is informed by:

- DfE Relationships Education, Relationships and Sex Education and Health Education statutory guidance (July 2025)
- Jigsaw PSHE programme of study and supporting documentation
- Evidence from educational research and best practice

Review and Update

This policy will be reviewed annually to ensure it remains up to date with:

- Statutory guidance and legal requirements
- Jigsaw programme updates and enhancements
- Emerging needs of our pupils
- Feedback from stakeholders
- National and local developments in PSHE education

Responsibilities

The PSHE Lead is responsible for:

- Overall coordination of PSHE across the school
- Keeping up to date with statutory requirements and best practice
- Supporting and advising teachers
- Monitoring quality and impact of PSHE provision
- Leading policy review and consultation processes
- Liaising with parents and external agencies
- Reporting to senior leadership and governors

The Headteacher is responsible for:

- Ensuring statutory requirements are met
- Supporting the PSHE lead and teaching staff
- Ensuring adequate resources and professional development
- Engaging with parents, particularly regarding sensitive content
- Managing withdrawal requests from sex education
- Ensuring PSHE connects with whole-school safeguarding and behaviour approaches

Governors are responsible for:

- Ensuring the school meets its statutory duties
- Approving this policy

- Monitoring implementation and impact
- Supporting the headteacher and staff
- Engaging with parent consultation processes

All Staff are responsible for:

- Delivering high-quality PSHE in line with this policy
- Reinforcing PSHE learning throughout school life
- Responding appropriately to disclosures and concerns
- Modelling the values and behaviour promoted through PSHE
- Engaging with professional development

JIGSAW 3-11 AND STATUTORY RELATIONSHIPS & HEALTH EDUCATION

Jigsaw PSHE is fully compliant with the DfE Statutory Relationships & Health Education Guidance 2025. This document maps the guidance to Jigsaw PSHE 3-11 by Year Group and Puzzle (unit of work) showing the depth and breadth of the curriculum coverage.

The numbers in the boxes refer to the lesson in that Puzzle (unit) that contributes most to the specific statutory outcome.

RELATIONSHIPS EDUCATION

Year 1 (5-6)

By the end of Primary, pupils should know:

		Being Me in My World	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me
FAMILIES AND PEOPLE WHO CARE FOR ME	F1: That families are important for children growing up safe and happy because they can provide love, security and stability.					1	2, 4
	F2: The characteristics of safe and happy family life, such as commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.				4	1	2
	F3: That the families of other children, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.					1, 6	
	F4: That stable, caring relationships are at the heart of safe and happy families and are important for children's security as they grow up.					1, 6	2
	F5: That marriage and civil partnerships represent a formal and legally recognised commitment of two people to each other which is intended to be lifelong.						
	F6: How to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.					3	
CARING FRIENDSHIPS	CF 1: How important friendships are in making us feel happy and secure, and how people choose and make friends.		5			2, 3, 6

SEX EDUCATION – NON-STATUTORY

Year 1 (5-6)

		Being Me in My World	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me
SEX EDUCATION	Sex education is not compulsory in primary schools, but we recommend that primaries teach sex education in years 5 and/or 6, in line with content about conception and birth, which forms part of the national curriculum for science.						
	Primary schools should consult parents about the content of anything that will be taught within sex education. This process should include offering parents support in talking to their children about sex education and how to link this with what is being taught in school as well as advice about parents' right to request withdrawal from sex education.

SEX EDUCATION – NON-STATUTORY

Year 3 (7-8)

		Being Me in My World	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me
SEX EDUCATION	Sex education is not compulsory in primary schools, but we recommend that primaries teach sex education in years 5 and/or 6, in line with content about conception and birth, which forms part of the national curriculum for science.						
	Primary schools should consult parents about the content of anything that will be taught within sex education. This process should include offering parents support in talking to their children about sex education and how to link this with what is being taught in school as well as advice about parents' right to request withdrawal from sex education.

Year 4 (8-9)

		Being Me in My World	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me
SEX EDUCATION	Sex education is not compulsory in primary schools, but we recommend that primaries teach sex education in years 5 and/or 6, in line with content about conception and birth, which forms part of the national curriculum for science.						
	Primary schools should consult parents about the content of anything that will be taught within sex education. This process should include offering parents support in talking to their children about sex education and how to link this with what is being taught in school as well as advice about parents' right to request withdrawal from sex education.

	CF 5: That most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened						4a
	CF 6: How to manage conflict, and that resorting to violence is never right.		3, 4		4	4	
	CF 7: How to recognise when a friendship is making them feel unhappy or uncomfortable, and how to get support when needed.		3, 4		3, 4	4, 5, 6	4, 4a

RELATIONSHIPS EDUCATION

Year 6 (10-11)

By the end of Primary, pupils should know:

	Being Me in My World	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me	
RESPECTFUL, KIND RELATIONSHIPS	RKR 1: How to pay attention to the needs and preferences of others, including in families and friendships. Pupils should be encouraged to discuss how we balance the needs and wishes of different people in relationships and why this can be complicated.	2, 4, 6	3, 6	3, 4, 5		2, 4	4, 4a
	RKR 2: The importance of setting and respecting healthy boundaries in relationships with friends, family, peers and adults.	4	3		3, 4	4, 5, 6	4, 4a
	RKR 3: How to communicate effectively and manage conflict with kindness and respect; how to be assertive and express needs and boundaries; how to manage feelings, including disappointment and frustration.	6	4	4, 5	6	4, 5, 6	4, 4a
	RKR 4: Pupils should have opportunities to discuss the difference between being assertive and being controlling, and conversely the difference between being kind to other people and neglecting your own needs.		3, 4		3, 4, 5	4, 5, 6	4, 4a
	RKR 5: That they can expect to be treated with respect by others, and the importance of respecting others, including those who are different (for example, physically, in character, personality or backgrounds), or make different choices, or have different preferences or beliefs.	2, 3, 4, 5, 6	2, 3, 4, 5, 6	3, 4, 5, 6	4	1, 4, 5, 6	4, 4a
	RKR 6: practical steps they can take and skills they can develop in a range of different contexts to improve or support their relationships	4, 5		4, 5		4	4, 4a, 6
	RKR 7: The conventions of courtesy and manners.	1, 4		6		4	4a
	RKR 8: The importance of self-respect and how this links to their own happiness. Pupils should have opportunities to think about how they foster their own self-esteem and build a strong sense of their own identity, including through developing skills and interests.	1, 3	1	1, 2, 6	5, 6	1, 2, 4, 5, 6	1, 2, 4a, 5, 6
	RKR 9: The different types of bullying (including online bullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult), and how to get help.		3, 4			4	4
	RKR 10: What a stereotype is, how stereotypes can be unfair, negative, destructive or lead to bullying and how to challenge a stereotype.	1, 2	1, 2, 5				1
	RKR 11: How to seek help when needed, including when they are concerned about violence, harm, or when they are unsure who to trust.	6		3	3, 4, 5, 6	1, 2, 3, 5, 6	4, 4a, 6

RELATIONSHIPS EDUCATION

Year 6 (10-11)

By the end of Primary, pupils should know:

		Being Me in My World	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me
ONLINESAFETYANDAWARENESS	OSA 1: That people should be respectful in online interactions, and that the same principles apply to online relationships as to face-to-face relationships, including where people are anonymous. For example, the importance of avoiding putting pressure on others to share information and images online, and strategies for resisting peer pressure.		3, 4			4, 5, 6	4
	OSA 2: How to critically evaluate their online relationships and sources of information, including awareness of the risks associated with people they have never met. For example, that people sometimes behave differently online, including pretending to be someone else or pretending to be a child, and that this can lead to dangerous situations. How to recognise harmful content or harmful contact, and how to report this.					4, 5, 6	5
	OSA 3: That there is a minimum age for joining social media sites (currently 13), which protects children from inappropriate content or unsafe contact with older social media users, who may be strangers, including other children and adults.				1	5, 6	
	OSA 4: The importance of exercising caution about sharing any information about themselves online. Understanding the importance of privacy and location settings to protect information online.					5, 6	4
	OSA 5: Online risks, including that any material provided online might be circulated, and that once a picture or words has been circulated there is no way of deleting it everywhere and no control over where it ends up.		4			4, 5, 6	4
	OSA 6: That the internet contains a lot of content that can be inappropriate and upsetting for children, and where to go for advice and support when they feel worried or concerned about something they have seen or engaged with online.					4, 5, 6	
BEINGSAFE	BS 1: What sorts of boundaries are appropriate in friendships with peers and others (including online). This can include learning about boundaries in play and in negotiations about space, toys, books, resources etc.	4	3		4	4, 5, 6	4
	BS 2: The concept of privacy and its implications for both children and adults; including that it is not always right to keep secrets if they relate to being safe.				3	2, 5, 6	2, 4
	BS3: That each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe contact, including physical contact.				1, 2		4
	BS 4: How to respond safely and appropriately to adults they may encounter (in all contexts, including online), including those they do and do not know.	5			3	4, 5, 6	
	BS 5: How to recognise when a relationship is harmful or dangerous, including skills for recognising who to trust and who not to trust.		3		3, 4	4, 5, 6	4

SEX EDUCATION – NON-STATUTORY

Year 6 (10-11)

		Being Me in My World	Celebrating Difference	Dreams and Goals	Healthy Me	Relationships	Changing Me
SEX EDUCATION	Sex education is not compulsory in primary schools, but we recommend that primaries teach sex education in years 5 and/or 6, in line with content about conception and birth, which forms part of the national curriculum for science.						3
	Primary schools should consult parents about the content of anything that will be taught within sex education. This process should include offering parents support in talking to their children about sex education and how to link this with what is being taught in school as well as advice about parents' right to request withdrawal from sex education.

Including and valuing ALL children

What does Jigsaw PSHE 3-11 / 12 teach about
LGBT+ relationships?

Jigsaw, the mindful approach to PSHE, is a teaching programme for Personal, Social and Health Education (PSHE) which includes statutory Relationships Education, statutory Health Education and non-statutory Sex Education (DfE England 2019).

It is a comprehensive programme for pupils aged from 3-16, and designed by Jan Lever MBE, a teacher and psychotherapist.

There are six half-term Puzzles (units) sequenced from the beginning to the end of the school year:

- **Being Me in My World**
- **Celebrating Difference**
- **Dreams and Goals**
- **Healthy Me**
- **Relationships**
- **Changing Me**

Each Puzzle has six lessons. The Jigsaw Friends are used as distancing tools along with the Jigsaw Charter to ensure a safe learning environment. Mindfulness philosophy and practice underpins and permeates the programme.

This information leaflet has been written to provide information about Jigsaw's approach to LGBT+ relationships in the age 3-11 programme.

Terminology:

LGBT+: lesbian, gay, bisexual and transgender. The + acknowledges other sexualities and gender identities.

In the Jigsaw 3-11 teaching materials, we introduce the terms lesbian, gay and heterosexual in a very small number of lesson plans from Ages 7-8 upwards in the context of different types of families, and there are some images that children may recognise as showing same sex in earlier year groups.

We do not introduce the term transgender in any of our lesson plans, but there are places in the curriculum where schools may choose to introduce this in line with their school policy so as to reflect their school community.

Premise:

Our experience shows us that children are good at accepting and looking past differences to the person. They are happy to be friends with/work with any peer they like and feel comfortable with, regardless of the differences that might be apparent. Of course, difference is sometimes used as a source of bullying and Jigsaw works hard to alleviate this.

So, firstly, it is important to state that Jigsaw nurtures positive and healthy relationships across the school community. It is concerned that all children understand what makes a relationship positive and healthy and can recognise and get help if they are experiencing something unhealthy etc. The starting point is building a positive, respectful relationship with self, engendering a sense of belonging and inclusion. This work begins in the Being Me in My World Puzzle (unit) in all year groups and is reinforced throughout.

Therefore, there is minimal focus on sexual orientation and gender identity in the age 3 -11 programme; enough to enable children to understand the meaning of the words lesbian, gay and heterosexual. This is set in the context of who people love, are attracted to and may want to marry or spend their lives with, but not in the context of any kind of sexual activity.

We acknowledge there are many gender identities and sexualities other than the ones we include in Jigsaw lessons but aim to ensure Jigsaw lessons are age and cognitive-load appropriate for primary-age children. We hope parents/carers will enhance this core work as they see fit in their own families.

This work is about alleviating stereotyping, accepting and respecting all people and celebrating differences of all sorts. In this way we aim to value and include all children and all family compositions, not to mention all teachers and members of the school community, thus equipping children for life in the UK today.

What does Jigsaw PSHE teach about LGBT+ relationships and why?

1) Jigsaw believes all children should feel included

Jigsaw is underpinned by the philosophy to value every child as a unique human being, to enable everyone to feel included and to celebrate difference, thus developing empathy, compassion and respect for self and others.

We believe that school is a place where all children should feel safe and respected.

Part of this is helping children to understand there are many differences and similarities between people and that this can be positive rather than a source of negativity, bullying or discrimination.

Jigsaw talks about children and people as being of equal value, without labels, and considers the qualities most important in human beings. It unpacks stereotypes and influences and helps children become mindful, aware of their thoughts and feelings and the impact these may have.

Families

One of the differences children will be familiar with is family composition.

There are many family situations; some children will have parents who are separated, some may live with a mum and a dad, some may have stepparents, some may live in extended multi-generational families, and some may be fostered or adopted. Some may have other family arrangements; and some of those in parenting roles will be heterosexual and some will be LGBT+. We believe the gender identity and sexual orientation of parents and family members is what it is. This is their business, no-one else's, and in children's eyes is insignificant as these are the people they love and who love and care for them.

Jigsaw therefore makes every effort to reflect a wide range of families in its images so that all children can resonate with their own experience of 'family'. No child should ever be made to feel less accepted, or that their family is any less loving and caring than another. Careful treatment is given to this work in Jigsaw to avoid children being at risk of picking up 'hidden messages' that may suggest to them their family is 'not as good as' or 'not right'.

Children who feel unaccepted or isolated are more vulnerable, possibly feel less secure, and potentially less able to apply themselves to learning. Jigsaw works hard to ensure its materials are accepting of all children and all families, (of course helping children to know how to get help if they are being harmed in any way).

The Jigsaw philosophy values every child as a unique human being and does not discriminate but supports them all to become the best they can be.

Jigsaw's lessons help children explore why a loving and caring family is important and how they contribute to that as members of their own families.

Examples of teaching materials

In Jigsaw we sometimes use images of people and sometimes distance the learning by using e.g. cartoon characters.

Ages 7-8 Celebrating Difference

This lesson offers many images and asks children, 'Which pictures show a family?' thus opening a discussion on what makes a family and concluding that what is important is that we are loved and cared for, whatever our family composition.

Ages 5-6 Relationships

This lesson uses cartoon characters from Planet Zarg to suggest there are many different sorts of

Children as individuals

In the same way that Jigsaw approaches all family compositions as of equal value, it also considers every child of equal value.

Some children in primary school may feel they are different in some way. This difference may be about their developing sexuality or gender identity, but equally, it may be about appearance, body-image, achievements, language, accent or any number of perceived differences.

The second Puzzle (unit) in the Jigsaw Programme for all year groups, called Celebrating Difference, is all about similarity and difference; the underpinning aim being to help children love and accept themselves for who they are and build a positive relationship with self and with others.

There is no direct teaching about children themselves being heterosexual or LGBT+, rather each child is treated as a valued individual.

We simply believe it is important that children understand that individuality is positive and not a source of negativity, thereby leading to acceptance and respect for self and others.

As they explore who they are and their sexuality and gender identity become more apparent to them, this will then be received in a positive way, without fear.

Jigsaw's ages 3-11 programme does not explicitly teach about heterosexual or LGBT+ relationships in adulthood either, other than to explain that any two adults can love each other and be attracted to each other.

The ages 3-11 Jigsaw Programme nurtures respect and acceptance for all, focussing on the characteristics of positive, healthy relationships children themselves will be experiencing e.g. family and friends.

2) Jigsaw aims to eliminate bullying and give age-appropriate understanding

Bullying is often focused on some aspect of difference, hence the Celebrating Difference work which includes anti-bullying work.

When discussing any differences between people, Jigsaw helps teach children to form opinions about others based on whether they are kind, law-abiding, respectful, trustworthy, and responsible people, rather than judging them on appearance or any other aspect of difference or on first impressions or unsubstantiated judgements.

Children will have heard, or will come to hear, words such as 'gay' or 'lesbian'. Sometimes these words can be used as insults or derogatory terms. In this context, Jigsaw explains the meanings of these words age-appropriately and teaches that these are not to be used in derogatory ways as this could cause hurt or harm and are disrespectful. No words are ever to be used to cause hurt or harm.

At no point in Jigsaw is any reference made to sexual activity of any adults regardless of their sexuality. This we strongly believe would be inappropriate and unacceptable. In ages 9-11 when human reproduction is taught (at the school's discretion) this is done from a biological standpoint. IVF and adoption are mentioned to ensure children are aware, but the focus is on teaching the biology of human reproduction.

Jigsaw lessons help by giving age-appropriate information, and by assisting teachers to clarify children's understanding of words and terminology. Explanations as to LGBT+ are always accompanied by explaining heterosexual so that LGBT+ relationships are not singled out as different to the 'norm' but rather seen as part of the whole range of relationships, sexual orientations and gender identities.

However, for ages 3-11 this work is minimal as we are most concerned to nurture accepting attitudes. Further understanding can follow at secondary school.

3) Schools have a duty to uphold the Public Sector Equality Duty (PSED)

The PSED or the Equality Act, as it is more commonly known, requires schools to eliminate discrimination; advance equality of opportunity; and foster good relationships. By doing so, the Equality Act encourages schools to meet the diverse needs of children and to improve outcomes for all pupils regardless of background. Part of the Equality 'duty' is to teach children about rights and responsibilities, acceptance, empathy and understanding of others. Jigsaw aligns to this throughout.

4) English schools have a duty to promote the spiritual, moral, social and cultural (SMSC) development of their pupils, including understanding British values.

The requirement to develop children’s spiritual, moral, social and cultural understanding is set out in the Education Act (2002).

In 2014, additional guidance was published for schools with regards to teaching British values. Guidance states that schools should promote the fundamental British values of democracy, the rule of law, individual liberty, mutual respect and tolerance, and makes it clear that children should learn about discrimination and how to combat it. At Jigsaw we wholeheartedly support these core values which are reflected in the guidance for Wales, Scotland, Northern Ireland and International Schools. As previously discussed, Jigsaw lessons, particularly in the Celebrating Difference units of work, include teaching children about acceptance, empathy, prejudice and discrimination, and the rights and responsibilities they have as UK and global citizens. A school’s SMSC education is an important part of the Ofsted inspection framework.

5) Schools have a legal obligation to safeguard their pupils

Safeguarding guidance establishes that schools must protect all children from physical and emotional abuse including bullying (on and offline) and abuse that could happen from an adult or from other children. Teaching children to accept there are a whole range of differences in people, helps combat stigma, discrimination and bullying. Children also need to be taught how to access help if they are involved in a bullying, or abusive situation. Jigsaw’s lessons, particularly in the Celebrating Difference and Relationships units of work, teach children why bullying can happen and why it is unfair, how to recognise a bullying/abusive situation and how to get help. Within this work children discuss a wide range of reasons why some people are bullied, or become bullies, and this includes some discussion around name-calling which includes the inappropriate use of words such as ‘gay’ and ‘lesbian’ as an insult towards another person.

6) Statutory Relationships and Health Education in England, and Relationships and Sexuality Education in Wales and Northern Ireland, and Relationships Education through statutory PSE/HWB in Scotland

Relationships Education is statutory for all primary schools across the UK. There are of course differences in each country’s guidance and specific outcomes, but there is a consistent approach throughout all primary schools that is supported by the Jigsaw teaching and learning materials in the classrooms.

Primary children learn that not all families are the same and to respect these differences.

They also learn about bullying and how to treat others with respect, whether this is within their immediate relationships, or in the wider community.

Each country’s guidance also states that when learning about different families, care should be taken to avoid stigmatisation of children based on their home circumstances. It also reaffirms the duty for schools to comply with the Equality Act, where sexual orientation and gender-reassignment are two of the nine protected characteristics.

Relationships guidance does not suggest a specific age when LGBT+ relationships should be brought into the curriculum, but there is an expectation for this to be included in a sensitive and age-appropriate manner, and in an inclusive way throughout, not simply as a one-off lesson or topic.

It is left to schools’ discretion as to how and when they teach what in this regard, taking account of their children and families, situations, beliefs etc.

Schools using Jigsaw will be compliant with this statutory guidance.

Transgender

For more information on Jigsaw's approach to gender identity and transgender, please see the article, 'How does Jigsaw approach Gender Identity?'

Parental right to withdraw

There is a clear expectation that all children should have access to the same learning opportunities about relationships and health that will be able to support them as they learn and grow. It is now statutory for all schools in the UK to deliver Relationships education.

The parental right to withdraw children from parts of the wider PSHE curriculum depends on each country's specific guidance.

If you require further information about the Jigsaw Programme and/or how your child's school delivers it, please do approach your child's school which will be happy to discuss the programme with you. Schools are, of course, welcome to tailor the Jigsaw Programme for their children's needs whilst remaining mindful of statutory requirements.
